

PRO_SAP

Price list	LT	PR
PRO_SAP STONE Includes base module, module 2 and STONE	€ 1.250	€ 2.500
Base module Input and staitic analysis of structures, BIM interface	€ 625	€ 1.000
Module 1 Reinforced concrete design	€ 375	€ 825
Module 2 Steel design and verification	€ 375	€ 825
Module 3 Dynamic analysis, buckling equilibrium stability	€ 375	€ 825
Module 4 R.C. construction drawing	€ 375	€ 825
Module 5 Design and drawing of steel connections, truss only tensioned or only compressed	€ 375	€ 825
PRO_SAP Standard edition Includes base module + module from 1 to 5	€ 1.950 € 2.500	€ 4.650 € 5.125
Module 6 Nonlinear static analysis, load history analysis, truss only tensioned or only compressed	€ 375	€ 825
Module 7 Masonry and timber design with connection drawings	€ 375	€ 825
Module 8 Analytical fire resistance verification	€ 450	€ 825
Module 9 Geotechnical analysis	€ 375	€ 825
Module 10 New technologies design	€ 375	€ 825
PRO_SAP Advanced edition Includes base module + module from 1 to 10	€ 3.650 € 4.450	€ 7.950 € 9.250
Module 11 Analysis with 64-bit e_SAP solver	n.d.	€ 375
Annual update Includes new software releases First year free update	€ 270	€ 540

LT version: max 750 nodes.
 PR version: no node limit.
 Discounts provided for multiple licenses - education - graduate - software exchange.
 Prices excluding VAT. Prices and features are subject to change without notice.

First year free update

PLUG-IN

<p>PRO_CSE Design and verification of steel connections (output for Castalia CSE) (requires base module, module 2 and Castalia CSE)</p>	<p>€ 650</p>
<p>PRO_IDEA Design and verification of steel connections (output for IDEA StatiCa) (requires base module, module 2 and IDEA StatiCa)</p>	<p>€ 750</p>
<p>PRO_SAM Pushover analysis for masonry, RC and mixed structures with engine SAM II by Magenes, Manzini, Morandi (requires base module)</p>	<p>€ 750</p>

Other Software (can be purchased without the base module)

<p>PRO_CINEM Kinematics analysis (linear and non-linear) of masonry structures</p>	<p>€ 500</p>
<p>PRO_SAFE R.C. industrial buildings seismic rehabilitation</p>	<p>€ 600</p>
<p>PRO_MST Retaining walls design</p>	<p>€ 400</p>
<p>PRO_VLIM Reinforced concrete sections failure domain</p>	<p>€ 500</p>
<p>PRO_VLIM Evolution Failure domain for r.c. and prestressed concrete sections , fire resistance analysis, FRP reinforcement</p>	<p>€ 1.100</p>
<p>PRO_CL4 Generic steel sections: classification and assessment of local instabilities with calculation of effective characteristics in class 4. Strength checks</p>	<p>€ 750</p>
<p>PRO_STAB Slopes stability analysis</p>	<p>€ 400</p>
<p>PRO_CIS Static suitability certificate for buildings in the Municipality of Milan (Italy)</p>	<p>€ 175</p>
<p>PRO_SMB Seismic risk classification for constructions with conventional or simplified method</p>	<p>€ 175</p>
<p>PRO_ILC Local interventions and construction details: calculation of framed opening in walls and floors, wooden or corrugated steel floors, RC stairs, maintenance plan, verification of infill expulsion, calculation of cantilevers</p>	<p>€ 750 *</p>

Discounts provided for multiple licenses (except PRO_SAM) - education - graduate - software exchange.
Prices excluding VAT. Prices and features are subject to change without notice.

*Discounts provided for holders of modules 4/5/7
